Subject: Serverfarm

Good morning,

Attached are the three site locations that will be interconnected as proposed for the project. There is an additional tie-in at the Transco site that is not shown due to uncertain location of upgrades. I have spoken with Scott Tollison (Gas Authority) and he is confident in the load calculations for the site, as previously submitted, are good to go. Let's follow up next week with any other updates or questions.

Have a great 4th of July weekend!
Mike
