---

Hi,

Thank you so much for the call.

Please see the information I sent to Joe below.

You mentioned you may be able to help with additional permits? I am looking to obtain a land disturbance permit also please for the site. There is currently one out pulled by a contractor called Brasfield & Gorrie and the original plan was for us to work as a secondary under their permit. They have requested that we obtain our own permit to carry out any land disturbance works on site. Can you advise me on the process please?

Thank you again for all your help!

Thanks,

Hi Joe,

Thank you for the call last week confirming the plan for the permits. When are we expecting the receive the permits please? Is there any other additional information that you or the team require to complete these that I didn't send in the email below?
We are talking the with GC, who will send over the 3 licenses required to obtain the electrical and mechanical permits you mentioned last week.

Thank you again! Your help through this process has been amazing!

Thanks,

Good morning Joe,

It was great to meet you in person last week. D'Avery kindly let me know that you stopped by this morning requesting a couple of documents so you could review them and help get the permitting process underway for the VoltaGrid power site.

I can't thank you enough for the support you're providing in helping us obtain the necessary permits. It's truly appreciated.

Please see attached the requested documents for your review.

Please let me know if you require any other documents, or if you have any questions.

Thanks,

Jenny Twentyman
