Re: Georgia Power Company Qualifying Facility Procedures; Docket No. 4822

Dear Ms. Tanner:

Enclosed for approval by the Georgia Public Service Commission (the "Commission") is Georgia Power Company's ("Georgia Power" or the "Company") updated *State-Jurisdictional Qualifying Facility Transmission Generator Interconnection Procedures*. These updated procedures reflect the Company's transition from a serial to a cluster study interconnection process for state jurisdictional qualifying facilities ("QF"). For ease of review and administration, the revised procedures also combine into one document the interconnection procedures and process documents, which together will provide instructions to QFs on how to request interconnection and also explain how the Company will study state jurisdictional QF interconnection requests moving forward. The Company seeks timely Commission approval so that the cluster study may be implemented effective January 1, 2027.

Please call me at (404) 885-3779 or email me at allison.pryor@troutman.com if you have any questions regarding this filing.

Best regards,

Allison W. Pryor
